The Science of Beautiful Hair™

## THICKENING TREATMENT FOR WOMEN

GET THICKER HAIR TODAY  
Recommended by Dermatologists

“ After the first wash I felt a **significant difference**. My hair appeared **volumised**... like it was already getting to work. **Definitely recommend!** ”

Jenny Cheshire

## OTHER VOLUMISERS MIGHT NOT BE ENOUGH

Only 1 in 10 women say they're completely happy with their hair, the rest of us need a bit more help! Great hair makes us more confident so it's only natural to want to look your best. But lush hair with real volume is difficult to keep, especially for those of us with thinner hair, or more hair loss than average.

## NANOGEN WILL HELP

Unlike any product you've seen before, Nanogen Thickening Treatments create real thickness from the first wash. They're fortified with unique Hair Growth Factors - signals like the natural ones your body uses to stimulate hair growth. Age & stress reduces the amount of Growth Factors you make, so supporting them with Nanogen ones gives your hair the boost it needs.
