underwriting options explained

1. **Moratorium Underwriting** – Not disclosing your medical history

- You do not need to give details of any of the applicants' medical history in the application form
- You are comfortable that we will not cover medical conditions for the first two years, that have existed at any time in the five years before your application
- You are comfortable that these conditions will only become eligible for cover after two years (unlike other providers PruHealth does not expect you to be symptom-free for those two years)

2. **Full Medical Underwriting** – Disclosing your full medical history

- You want to know exactly what you and your dependants are covered for
- You are prepared to provide all the requested details of the medical history for all applicants, and are aware that we may ask you to provide additional information from your GP if necessary
- You're comfortable that this information may result in exclusions or loadings on your policy

NB: For all underwriting options we may contact your GP when a claim is made to confirm that the condition was either disclosed or pre-existing.

access to medical reports consent form

We may need to get medical reports to support your application. Before we can ask any doctor that you have consulted to fill in a report, we need your permission under the Access to Medical Reports Act 1988. Your rights under the act are as follows.

You do not need to give your permission, but if you do not, we may not be able to go ahead with your application. This does not prevent you from applying to other companies for insurance.

You can ask to see the report before the doctor returns it to us. If this is the case, we will tell the doctor to keep the report for 21 days so that you can arrange to see it. If you have not made arrangements to see the report within this time, your doctor will send the report to us.

If you choose not to see the report at this stage, you may ask the doctor for a copy within six months of it being sent to us. We can send a copy of the report to your doctor if you ask to see it at a later date.

If you think that any part of the report is not correct or is misleading, you may ask the doctor to amend it. If your doctor refuses to make the amendments, you may ask him or her to attach a statement outlining your views, which will then accompany the report.

Your doctor can withhold access to the report if he or she feels that it would cause physical or mental harm to you or others.
