Read all of this carton for full instructions.

**What this medicine is for**  
This medicine contains a wind reliever and antacids, which can be used to relieve bloating and the pain of trapped wind. It can also be used to relieve the symptoms of indigestion, heartburn and excess acid.

**Before you take this medicine**  
Do not take this medicine if you:  
• are allergic to any of the ingredients  
• have low levels of phosphate in your blood  
• have kidney problems  
! Talk to your pharmacist or doctor if you:  
• take other medicines – tetracycline antibiotics, chloroquine (to prevent malaria), quinolone antibiotics (e.g. ciprofloxacin), penicillamine (for rheumatoid arthritis), phenothiazines (e.g. chlorpromazine for mental problems) Tell your doctor or pharmacist if you are taking, have recently taken or might take any other medicines.

**Pregnancy and breast-feeding**  
If you are pregnant or breast-feeding, think you may be pregnant or are planning to have a baby, ask your doctor or pharmacist for advice before taking this medicine.

**Important information about some of the other ingredients of this medicine**  
This medicine contains sucrose. If you have been told by your doctor that you have an intolerance to some sugars, contact your doctor before taking this medicinal product. May be harmful to the teeth.  
This medicine contains 402 mg sorbitol in each tablet.

Sorbitol is a source of fructose. If your doctor has told you that you (or your child) have an intolerance to some sugars or if you have been diagnosed with hereditary fructose intolerance (HFI), a rare genetic disorder in which a person cannot break down fructose, talk to your doctor before you (or your child) take or receive this medicine. Sorbitol may cause gastrointestinal discomfort and mild laxative effect.

**How to take this medicine**  
Always take this medicine exactly as described on this carton or as your doctor or pharmacist have told you. Check with your doctor or pharmacist if you are not sure. Check the foil is not broken before use. If it is, do not take that tablet.

Age	How many to take	How often to take
Adults and children over 12 years	One or two tablets	After meals, at bedtime, or when you need to.
Children 5 to 12 years	One tablet	After meals, at bedtime, or when you need to.

Suck or chew the tablets.  
Do not give to children under 5 years.  
If symptoms do not go away within 5 days talk to your doctor.  
**If you take too many tablets:** You may feel sick or be sick. Talk to a pharmacist or doctor if this happens.
