Eurax Hc Cream is a non-greasy, non-staining skin cream to treat: • skin conditions caused by substances such as bleaches, soaps and detergents, jewelry etc. • insect bite reactions. It effectively reduces inflammation and quickly relieves itching and associated scratching which can further aggravate irritated skin. **Do NOT USE if you:** • are allergic to any of the ingredients • have cold sores, acne or athlete's foot • have weeping open skin wounds • are pregnant or breast-feeding without medical advice • are a child under 10 years. **Do NOT PUT** the cream into your eyes, nose or mouth, anus or genital area. In case of contact with eyes, rinse immediately with water. **Cautions:** Contains stearyl alcohol, propyl & methyl parahydroxybenzoate and fragrance (inc. benzyl alcohol (0.0187%), benzyl benzoate (0.0047%), citral, citronellol, cocomann, d-limonene, eugenol, geraniol and linalool) which may cause local allergic skin reactions (e.g. contact dermatitis, possibly delayed). If this happens stop using the cream. This medicine contains 20mg hydrocortisone per gram of cream. It is a mild corticosteroid. **Directions:** Eurax Hc Cream is classed as a mild corticosteroid. Adults and children over 10 only: use sparingly on a small area twice a day. Do not cover the area with dressings. If the condition does not improve within 7 days, consult your doctor. **Possible side effects:** Occasionally you may get irritation at the site of application, such as a burning sensation, itching or contact dermatitis. Stop using the cream if you experience severe skin irritation, blurring of vision, headache, dizziness or any symptoms not listed. If reactions might appear to be different from the previous condition, may occur in some patients during treatment periods or a withdrawal reaction, which might appear to be different from the previous condition, may occur in some patients during treatment or within days to weeks after stopping treatment, with some or all of the following features: redness of the skin which can extend beyond the initial area treated, a burning or stinging sensation, intense itching, peeling of the skin, oozing open sores. **Reporting of suspected adverse reactions:** Reporting suspected adverse reactions after authorisation of the medicinal product is important. It allows continued monitoring of the benefit/risk balance of the medicinal product. Healthcare professionals are asked to report any suspected adverse reactions via the Yellow Card Scheme at: [www.mhra.gov.uk/yellowcard](http://www.mhra.gov.uk/yellowcard), or search for MHRA Yellow Card in the Google Play or Apple App store. **Keep out of the sight and reach of children.** Do not store above 25°C. Do not use after the expiry date given.

**FOR EXTERNAL USE ONLY**
